Airport travel information

The two closest airport options you have to fly into are:

Seattle-Tacoma International Airport. Airport code: SEA

About 1.5 hour drive in good traffic, or about 95 miles

Drive time will depend on traffic\time of day.

Bellingham International Airport. Airport code: BLI

About 1 hour drive, or about 45 miles

Drive time will have little to no traffic or time of day issues.

Both have rental car options available.

Things to consider when deciding which airport to fly into.

Note your overall travel time.

With the lay over in Seattle, the flight to Bellingham and then the drive time, you may be better off flying into Seattle and driving from there.

You should also consider the additional cost of flying into Bellingham.

While Bellingham is closer and won't likely have any traffic delays, it may still take less time to drive from Seattle and it may cost less too.

Bellingham is a much smaller airport than Seattle, so there are pros and cons to both.

However you fly you'll want to consider what time you'll arrive at Rosario.

If you have the option, you may want to fly in a day ahead of time and fly out on Monday. This will be less stressful if there are delays and allow you maximum time to enjoy your experience in the Pacific Northwest!

Note: for those flying in you can rent a sleeping bag, pillow, bath towel and face cloth for \$20. Select this option in the "A la Carte Options" on page 1 of this registration form.

Note: For those wanting to car pool from the airport or otherwise, we don't arrange guest carpooling or any other travel arrangements. If you want to try and arrange your own car pooling, we suggest joining our Facebook group and posting there to find others you might be able to arrange travel arrangements with. Our Facebook page is at <https://www.facebook.com/groups/WAASAM/>
